“An expert voice for the consumer electronics and high-tech industries that executives and organizations of all experience levels would do well to heed.”

Trip Hawkins, Founder, Electronic Arts and Digital Chocolate

“Provides honest, succinct feedback on product and marketing directions... not only does TechSavvy identify strategic risks, they offer clear suggestions and guidance on how to reduce them.”

Jeevan Kalanithi, Founder, Sifteo

“A leading authority on the technology and video game industries that’s helped our state, government and local businesses establish themselves as top players in the high-tech field.”

Kristina Hudson, Director, Washington Interactive Network

“I’d probably still be doing Atari and Chuck E. Cheese’s if I’d had someone like Scott Steinberg to help me in those projects.”

Nolan Bushnell, Founder, Atari

“We engage TechSavvy to prepare clients for key product launches. Their detailed and thoughtful feedback resonates incredibly well with CEOs and management teams alike. They add value to everything from packaging to product performance. I highly recommend the team.”

Alice Chan, SVP and General Manager, Red Consultancy

“If you really want to know about business, you should refer to Scott Steinberg.”

Sir Richard Branson, Founder, Virgin Group

“From product testing to marketing and usability analysis, TechSavvy provides unparalleled insight into the shape of consumer electronics and technology products and services.”

Toby Strangewood, Marketing Director, Physi-Cal Enterprises

“TechSavvy delivers business strategy consulting, market analysis and sales/branding solutions that organizations can benefit from at every level.”

Liz Dickinson, CEO and Founder, Mio Global

“Whether plotting business and pricing strategy, establishing operating models that allow for strategic cost reduction or creating roadmaps for planning and growth, start-ups and investors alike will find that TechSavvy comes highly recommended.”

Krating Poonpol, CEO and Founder, Mobilitz
